

Compact 50 W Power Amp

Versatile, efficient, compact power amp packed with features

Why you need it:

- Every classroom or conference room needs a power amp
- There are a lot audio signal formats, consumer line input, pro line input, mic input, S/PDIF input, etc. A power amp should be able to connect to any of them

Features and benefits:

- Professional quality 50 W mono or 25 W x2 stereo outputs
- Ultra compact ¼ rack wide, 1 rack U high, 3" deep metal enclosure, in-rack and above-projector mountable with external volume control
- Convention cooled, no fan, quiet, super-efficient, Energy Star compliant
- Built-in DSP (Digital Signal Processing) for room acoustic compensations
- Built-in mic preamp with independent recessed front panel mic gain pot
- 1 professional balanced line input, 2 consumer unbalanced line inputs
- Digital S/PDIF input, direct all-digital amplification with near zero distortion
