HDMI Splitters

Smart, reliable and versatile HDMI distribution

Why you need it:

- One source to multiple display distributions are widely used
- Picture solution and sound format management is required when the displays are not identical

Features and benefits:

- World's first line of HDMI splitters with full HDMI 1.4 support including 3D, HDMI Ethernet and Return Audio
- Smart Signal Format Management automatically selecting the highest video and audio format that all live displays in the system can reproduce at any time
- Build-in Ethernet hub to feed Internet to all HDMI devices connected to it
- Build-in Return Audio switcher to select which return audio to feed to receiver
- RS-232 port for controls, status monitoring and firmware updates
- Rack mountable steel enclosures
- Luxi patent pending locking HDMI connector design to ensure secure connector mating
